## DAY OF CARING

### September 11, 2009 The Hartford Insurance Group

Members of the Hartford Insurance Group met on a rainy Friday morning to start work on the Enfield Loaves and Fishes Soup Kitchen to improve the interior spaces, as well as clear away overgrowth on the outside of the building that houses it. Many volunteers for the Day of Caring donated their skills for some of the many jobs needed around the building.

Walls and wainscotings were painted over after preparation. New colors were selected to replace some of the older styled palette from years ago, and a fresh new look was given to some

old walls.

The outside of the building wasn't neglected, either. Piles of overgrown shrubbery rose up on the front

lawn, as volunteers raked, cut, and cleared away accumulated brush. Despite the rainy weather, the outside looked better than it had for years.

After all that hard work painting ceilings, walls, outside porticos, shrub trimming, weed whacking, and even some light repairs, All the volunteers were invited into the Soup Kitchen for a luncheon, served in Typical EL&F style. After all, we are all about the food!

Everyone enjoyed the luncheon of locally-made kielbasa, salads, cold cut sandwiches and pasta salads, as well as an impressive array of fresh desserts arranged especially for the Day of Caring volunteers.

After everyone had a chance for seconds, Priscilla Brayson presented some tokens of our appreciation to the Hartford Group – an official Enfield Loaves and Fishes apron, custom-embroidered with “The Hartford Group”, and a Certificate of Appreciation.

From the bottom of our hearts, we extend our thanks to the Hartford Group, through the United Way Day of Caring. Through the work of many hands comes lasting results that will endure for years to come, improving upon our mission to help those needy individuals in the community.
